COMMENTS & REASON FOR DECISION:

To San Dieguito Coach: Please make sure your students dress in debate appropriate clothing. I'm not judging Stickball - a coat & tie for men is not unreasonable & teaches a lesson in itself. = parametrize

The science lesson in Dengai doesn't give me a single reason to affirm. I should affirm because Dengai might kill someone, but the calculus about why that justifies possibly immunizing someone is not there. The AC simply doesn't set you up w/ the ability to make good extensions in the 1AR & 2AR, respectively

To the negative critique - if there's no autonomy, what power from the power structure are debating to me who ought to win?

You two should really look into using value criterions - It would make my job a lot easier.
